 4. **Policy and Welfare**, Terri Vaughan. Members discussed alternate ways to notify campus when there is an inclement weather announcement. Suggestions included:
 - Set the university on the same schedule as Pickens (and/or Oconee if possible) County schools instead of Pickens County offices.
 - Determine schedule by 6:30 a.m. and send notifications at that time. Once notification has been sent, do not change.

- Reduce the number of people who have to provide input for emergency closing so the decision can be made more quickly. Develop a procedure that allows the Crisis Management Team to put a plan in place that can be approved immediately by the Chief Safety Officer without having to wait for the Student Affairs Vice President and the Provost.

We were also asked for clarification on parking decal requirements for employees who do not work on campus. Some constituents thought that if they worked within a 7 mile radius of campus they were required to purchase a permit. Dan Hofmann informed us that there is no requirement to purchase a parking permit. If employees work off campus and rarely or occasionally come to campus in a vehicle, they can weigh the option/cost of an annual permit vs. a \$2.00 per day Occasional Use Permit.

5. Scholarship, Leslie Doss.

Year in Review (sampling)

Past president Angela Nixon represented staff input as an active participant on the Provost search committee. Senate Executive Committee members had several opportunities to get to know and evaluate the final candidates. I would say our time was well spent!

The fourth year of the Staff Development program was completed. We saw 23 staff members complete this volunteer-led program requiring 150 combined hours in the areas of service, professional and personal development. Thank you to the administration for supporting this program for a 5th year. These participants will be wrapping up in June.

President Clements has been a genuine advocate for the accomplishments of our staff and work that is often done behind the scenes. He is quick to recognize the impact that staff have on our numerous top rankings in his reports, speaking engagements and social media.

We conducted an outreach event for staff in the Greenville area. We introduced ourselves and listened to their issues and accomplishments. We found programs that were working, like Greenville's Greenlink bus service that connects Clemson and Greenville. We heard things that were inefficient, such as communication, engagement and mail services. All in all, this was a fantastic event and we hope to have more of these in the future.

One of our goals this year was to increase participation for annual giving to Clemson and increase awareness of the Staff Senate Scholarship Fund. I can report two fantastic pieces of information to you. First, staff giving is up over 20% (or \$20,000) from this time last year. Second, the Staff Senate Scholarship Fund raised enough money to allow for an increase of two \$1,500 scholarships for children of staff, bringing the number to 12...a total of \$18,000 for children of staff each year. We could NOT have done this without the support of our friends in the Development Office, the President's Office, the Athletic Department, and of course, the loyalty and generosity of the donors to the Staff Senate Scholarship Fund.

The Staff Senate is very passionate about issues affecting staff and actively raising money to support the education of our children, but we also care about benevolence in our community. In September 2014, we conducted our first-ever "loose change" fundraiser for the Golden Harvest Food Bank. It generated enough for about 900 meals, over \$1,750 impact for local families. But we wanted to do more and decided to try this again in March. This time we raised enough money to provide over 4,800 meals....a \$10,500 financial impact!!!

From Here

Staff Senate continues to play a very active role in working with the administration to provide additional accommodations for nursing mothers, including Clemson being named a "Mother-friendly employer" by the SC Breastfeeding Coalition. We should learn our fate on this achievement from the SCBC by late April.

April 2015 report

We continue to work on a team assessing the tuition assistance benefit and exploring potential business models for long-term sustainability and increasing of types of programs covered. As part of this team we have completed a phase I communication effort to draft a document outlining the current benefit in greater detail and explaining the staff-specific, procedural steps during their academic lifecycle.

It has been my pleasure and true honor to serve the amazing staff of this great University and collaborate with the administration. I am thankful for the many opportunities I had to be an active leader in Clemson's success and for the many friendships I have made during this time. I appreciate the inclusive opportunities given to me and look forward to finding other ways to stay involved here at the University.

I would like to introduce Tina White as the incoming Staff Senate President. She is a producer in Clemson Broadcast Productions, under Advancement. This marks the third consecutive Staff Senate President from Advancement. VP Cameron and his leadership team must be doing something right to produce these fine leaders! Her term is scheduled to begin April 21st.
